

# *iam...* Lesson Plans

## **FREE toolkit for high school teachers to support student learning about identity and belonging**

Designed for students from grades nine to twelve, the *iam...* lesson plans draw from a collection of 28 short films produced by students from across Canada. The films make up a tapestry of personal stories that examine the challenges of identity and belonging in Canada today, and provide a teaching resource with transformative possibilities.

Teachers can use the guide to lead a dialogue in the classroom that will:

- challenge systems of inequity and exclusion
- fosters a sense of equity and inclusion
- affirm every student's sense of well-being and belonging
